Aut inveniam viam, aut faciam.

LOUISA, LAWRENCE COUNTY, KENTUCKY, AUGUST 11, 1905.

VOL. XX NO. 49.

## THE NEWS OF THE WEEK. A Daily Resume of Important Happenings.

In a quarrel over an alleged debt, Felix Hoskins, a wealthy lumber merchant, of Leslie county, was shot to death by his first cousin, Nick Garrison, also a lumberman. Garrison, fled to the mountains, where he is being hunted by a posse.

Burgess White, Russia's ranking envoy to the peace conference, arrived in New York yesterday and was greeted with cheers from a large crowd as he descended from the gang plank at the steamship docks. In an interview Mr. White asserted that he was favorable to peace. While peace, however, was desirable to Russia, he said, it was not indispensable. He spoke in high praise of the valor of the Japanese.

Secretary Wilson has authorized a statement regarding the charge that his son and private secretary had made a trip to Alaska, the expenses of which had been paid by the government. The secretary admits the facts, but states that the trip was for the purpose of making certain investigations into the killing of game by hunters, and that his son was a paid employee of the department, traveling on official business.

At an informal meeting of a number of insurance commissioners from Western and Southern States, including Kentucky and Tennessee, it was determined to conduct an independent investigation of the affairs of the three big life insurance companies for the purpose of determining whether they are entitled to the confidence of the people. A meeting of the commissioners will be held in New York on August 10 to arrange a programme of work.

Mrs. Esther Damon, of Vermont, at the age of ninety-one, enjoys the distinction of being the last surviving widow of the War of the Revolution, which ended 122 years ago. She was born August 1, 1815, nearly a year before the battle of Waterloo, but the war which she draws a pension was ended thirty-one years before she was born.

A remnant of all soldiers, Federal, Confederate or veterans of the Spanish-American War, will be held at the age of 111, three miles from Owingsville, August 21, September 1 and 2. A number of prominent speakers will attend.

The strike order of the telegraphers' union on the Great Northern and Northern Pacific railways, which has been generally obeyed. Hundreds of operators have gone out on both lines, necessitating the closing of scores of stations and causing great hindrance in moving trains. Freight matter in less than car-load lots is being refused at Minneapolis and St. Paul. The railway officials say they will have enough men in ten days to fill the places of the strikers and maintain a normal service.

Gov. Blanchard, of Louisiana, has ordered boats armed with rapid fire guns dispatched to Lake Borgne to protect the rights of citizens of Louisiana against aggression by Mississippi quarantine patrols. A report made by the officers sent for that purpose confirms the capture and unloading of boats belonging to Louisiana fishermen. Gov. Vandam, in an interview, says that talk of conflict between the States is ridiculous, but a more serious view of the situation seems to be taken at New Orleans.

In a pistol duel near the Virginia line, between Berry Hensley and Mose Middleton, Jr., the latter was instantly killed.

Amirant Postmaster John Ballard, of Richmond, was arrested yesterday on the charge of refusing registered letters. Secret service men have been working on the case for some time.

A unique raid on gamblers was attempted by the Chicago police which ended in the escape of most of those threatened with arrest after a hot chase on the waters of Lake Michigan. Those whose arrest was contemplated were the frequenters of the floating pool room known as the City of Traverse. Most of the gamblers were in a swift boat than that at the command of the police and were first past the line that separates the waters of Illinois from those of Indiana.

Although there is a decrease in fatalities from yellow fever in New Orleans, there is a considerable increase in the number of new cases. The authorities, however, still feel confident in their ability to cope with the plague. It was decided that a thorough campaign of city cleaning would have a fine moral effect, though the doctors do not believe that it will have any direct influence upon the disease. The fact that the center of infection has been the poorest class of Italian residents accounts for the fact that a powerful movement for immigration, a movement which employers of labor in the South have recently been disposed greatly to encourage.

Four men are in jail at West Liberty, Ky., charged with an aggravated assault upon a woman and her children. Officers are waiting for the fifth man, who is to be imprisoned.

Not welcome to Secretary Taft's party exceeded all previous

demonstrations of the kind in this city. Another great popular demonstration and parade will take place on Monday.

In a written opinion delivered by Attorney General Hays, it is held that Revenue Agents in instituting suits for back taxes, must employ the County Attorney of the county in which the action is instituted.

The President has approved the sentence of the court martial in the case of Lieut. Marion B. Wilbur, formerly of Kentucky, who was dismissed from the army for duplication of pay accounts at Jackson, Arkansas, La.

At a meeting of the Kentucky County Republicans, at Somerset, resolutions were passed recommending that the resignation of H. P. Ernst as chairman of the State Central Committee, but also his expulsion from the party.

Meetings of barley tobacco growers were held in twenty Kentucky towns and counties to discuss the organization plan of the Barley Tobacco Growers' Association. The capital stock of the proposed concern was originally fixed at \$250,000, but it is now said that this may be increased to \$750,000.

Consul General Hodgers reports to the State Department from Shanghai that the Chinese Chamber of Commerce of that city deprecates the boycott of American goods and is anxious that it be abandoned. It is said that this same Chamber of Commerce was most active in starting the movement.

Attorney General Moody Saturday telegraphed the District Attorneys at points on the Great Northern and Northern Pacific railways asking them to investigate the facts as to interference of telegraph service by reason of the telegraphers' strike, and to make full reports to the Department of Justice.

At a meeting of the Republican County Committee of Fayette county, formal notice was given the Republicans party by the colored members of the committee that unless negroes were given equal prominence on the ticket selected to oppose the Democratic nominees there would be a split in the party, the negroes going over to the opposition.

A man, said to have been intoxicated, shot and killed a passenger on the Alton train as it was crossing the Mississippi river at Louisiana, Mo., Saturday. He then proceeded to hold up another passenger, and shot at random in the car, wounding a woman. He was overpowered by the passengers and placed in jail at Louisiana. He refused to give his name or state where he was from.

The fact that the Federal health authorities will take hold of the yellow fever situation had a good moral effect at New Orleans, and conditions for that reason are considerably improved. There was an extension of the infection, however, fifteen new centers, or foci, having been discovered Saturday. Among the new cases developed is that of Archbishop Chapelle, who has been much in the infected region. Memphis has declared an absolute quarantine against all persons, whether from infected regions or not. Railroad communication with Shreveport is entirely shut off.

President Roosevelt Saturday received the Russian and Japanese peace envoys on board the Mayflower at Oyster Bay. The plenipotentiaries were introduced to each other by the President, and afterward were entertained at luncheon, during the luncheon the President offered the following toast: "I drink to the welfare and prosperity of the sovereigns and people of the two great nations whose representatives have met here today. It is my most earnest hope and prayer, in the interest not only of these two great Powers, but of all mankind, that a just and lasting peace may speedily be concluded between them."

Secretary Taft and party have arrived at Manila. Their arrival was made the occasion of a gorgeous water pageant. Gov. Gen. Wright, Maj. Gen. Corbin and Rear Admiral Train, with their staffs and the official Reception Committee, met the party when the Manchuria anchored.

Insurance Commissioner Henry H. Prewitt will leave Wednesday for New York, where, acting in conjunction with commissioners from other States, a thorough investigation into the affairs of three big life insurance companies will be made.

At a meeting at a Cotton Exchange in New Orleans Friday it was decided by the health authorities and business interests of the city to request the Federal Government to take full charge of the fight against the epidemic of yellow fever; and setting out in instructions from the meeting, Mr. Blanchard wired the President to that effect. The President at once instructed Surgeon General Wyman, of the Public Health and Marine Hospital Service, to do everything possible to comply with the request from New Orleans and to make a prompt report on the subject.

### Kentucky's Corn.

Corn is King in Kentucky this year and the harvest of this important crop promises to exceed by hundreds of thousands of bushels the yield of any other year. The crop is now practically safe with the exception of some very late planting. Throughout the State in bottom and on hillside, in the rich valleys and on the poor fields, such luxuriant growth was never before seen. One of the most beneficent things in connection with the crop is that the farmer on poor land, who usually has a scanty crop and sometimes nothing at all, will share this season with the rich farmer the great blessings of rain and sunshine that have made Kentucky a veritable Garden. Thousands of farmers who are usually fortunate in raising ten bushels of corn to the acre will have thirty and forty and more corn in many cases than there is place to store it. While Kentucky produces ninety-five per cent of the hemp and over half of the tobacco of the United States, it is also a fine wheat producing State, corn is the crop which is most universally raised. Every farmer is a corn-producer and a big crop of this staple means prosperity to more people than anything else that is produced out of mother earth. Corn is the principal food product for both man and beast. It is to the farmer what sugar is to the grocer, the great leading staple. The abundant corn crop this year will help the people who need help most. It will put enough dollars in the pocket of the man who works the poorest land to make him feel the necessity of a bank account. It will pay off his little debts. It will enable him to provide his family with many of those creature comforts which his more fortunate neighbor has long enjoyed and which he and his good wife have so often longed for. He will be able to keep his work stock fat and sleek this winter and to sell a steer or two and a bunch of fat hogs.

We rejoice in the goodness of God who showers his blessings, like the gentle rain from heaven both upon the just and unjust. We especially rejoice that He has put gladness in the hearts of the poor and has put joy and sunshine in the log cabins as well as the brick mansions with their beautiful porches.

We are going to have to use a western expression "A bumper crop," and while the corn crisis overflows with the harvest hearts will rejoice and be exceedingly glad.

G. B. HURBANS TESTIFIES AFTER FOUR YEARS.

G. B. Hurbans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I haven't had a return of any of these systems during the four years that have elapsed and I am evidently cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney and bladder trouble." Sold by Louisa Drug Co.

At Hoggallow.

(From the Hoggallow Kentuckian.) Brother Elmer Oliver preacher at sermon at the Hog Ford church last Sunday that fifty raised the roof. He also raised eighty cents.

Sin Filanders, who assisted the neighbors to bury his second wife in a couple of months ago has bought a new pair of britches and some new galoshes, and says if sufficiently urged and properly approached he will get married again.

Salem Barlow was caught while getting away with two sides of mutton and a hawk liver from our cousin Nat Bart's smokehouse Wednesday night. The matter was hushed up at Salem on his hustling constable.

Last week while Bud Henstap was trying to swap his shotgun, it went off and killed a fellow by the name of Pete Souduboy, who lives some where near Tickleno. No ill feeling exists between the families as Bud didn't know the gun was loaded.

Miss Hostetter Hocks is laid up this week from being hit by a hawk last Sunday. She was to have eloped with Jim Henry Kassum but Jim's mole jumped the fence the night before and got fondled at a straw stack.

Richard Henstap got drunk Thursday and rode his mule off of the Gander creek bridge. The creek was up and him and the mule stayed together. They floated up down and took breakfast with Brother Elmer Oliver.

Sin Filanders is hustling about these days selling his new patent goose yoke. It is constructed on the same plan as the calf muzzle the editor invented last summer.

### THE MOSQUITO.

#### An Ounce of Prevention.

It having been clearly demonstrated beyond all question that the mosquito is actively pernicious, as an agent in the promotion of malarial fever, besides being very annoying, otherwise a few simple and practical instructions for the extermination of the pests may be valuable. As usual, the feminine is at the bottom of our troubles, and it's the female mosquito which must bear the burden of guilt now. If you are getting nightly wrenads from the little minaret which sings its song and immediately presents it bill, look within six hundred yards of home and you will find it laying eggs in some of these places:

"In some place of standing water;  
"In a cesspool;  
"A sewer inlet;  
"A rain water barrel;  
"A horse trough;  
"A roof gutter that is clogged;  
"An old tin can;  
"Broken crockery that holds water;  
"A water pan for dog, cat or chicken.

"A water receptacle for a grindstone;  
"A hole in a tree;  
"A watering pan for birds;  
"A garden fountain;  
"Any place, in fact, where water stands for five days or more. One ounce can in a shady spot, with water in it, has been found to breed sufficient mosquitoes to keep a family unhappy all summer."

The following advice is given for preventing the propagation as mosquitoes when such conditions exist:  
"Clean out every place where water stands;  
"So dispose of old tin cans bottles or what not that rain cannot possibly be retained;  
"Watch your roof gutters;  
"Empty your rain barrel of water every week or green it closely with fine-meshed wire on top;  
"Change the water every day in a drinking pan for dog, cat or bird;  
"Watch the watering trough near your stable;  
"Fill a hole in a tree with oil packed tight with oil cement;  
"In other words, get rid of, or coat with kerosene, all stagnant standing water, and you will get rid of mosquitoes."

"If you have a playing fountain, put little fish, like minnows or goldfish, in the water and they will eat the mosquito larvae;  
"If you have a sluggish brook or a stagnant pond near your house, spray kerosene or coal oil on the surface; this makes it impossible for the 'writers' to breathe when they come to the surface, and they die. The coal oil application is only necessary at the edges and is good only so long as the oil film is unbroken.  
These remedies are all simple and practical. The application of them entails some trouble, but it is slight compared to the good results which will follow, both as to comfort and health. If some energetic person in each neighborhood would inaugurate the work and encourage his neighbors to unite with him in it, the movement would soon take an organized shape and prove effective in its results."

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

WASTING AWAY

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and declined with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Sold by Louisa Drug Co.

### A Leaf From Kentucky History.

(Written for The Kentucky Farmer and Breeder by John Goff, Esq., Goff House Farm, Indian Fields, Ky.)

The first woman to own a piece of land in Kentucky was Susannah Boone, daughter of Daniel Boone, who very early obtained a patent for a tract in Madison county.

The first marriage in Kentucky was that of Samuel Henderson to Elizabeth Chitaway, August 7, 1776. Their daughter, Fannie, born in 1777, was the first white child in the State born of parents married in the State.

The first plow stock manufactured in Kentucky was made by William Poague, at Harrodsburg, in 1776. He also made the first loom, while his wife brought the first spinning wheel to the State and wove from the lint of nettles the first piece of linen manufactured, and from buffalo wool, the first piece of linsey.

The first grist mill in the State run by water power was, perhaps, one built by Capt. John McMurry, near Shakerstown, in Mercer county, in 1772.

The first paper mill in Kentucky was erected by Elijah Craig, near Georgetown, 1792.

The first apple seeds were planted in Mercer county by members of the McCreary Company in 1773. Dr. Walker and his companions planted the first peach seeds and raised the first crop of corn cultivated by white men near Harrodsburg in 1750.

The first wagon of which history gives an account was run over Smith's wagon road from Lexington to Maysville in 1783 by a man named Smith.

The first steamboat, or model of one, in the world was constructed by John Fitch at Lexington in 1785.

The first railroad—about one mile in length—was built by James A. Sikes and Jacob Van Meter in 1822. The cars were drawn by horses.

The first horses were brought to the State in 1750 by Dr. Walker; the first cattle and hogs by Boone and his companions in 1775.

The first lawyer in Kentucky was John Williams, manager of the Transylvania Company.

The first Englishman who visited Kentucky were those under the leadership of Col. Wood, who, in 1651, explored the northern boundary in the State.

The first Frenchmen to view any portion of the State were a small band of fur traders, who, in 1673, traveled in canoes down the Mississippi as far as the mouth of the Arkansas.

The first settlement of Frenchmen in the State was established at a point opposite the mouth of the Scioto River in 1739.

The first house built by Englishmen was Dr. Walker's cabin on Cumberland River in 1750.

The first permanent English settlement was at Harrodsburg in 1775.

The first court in the State was held at Harrodsburg in 1777.

The first road in the State was Boone's trace.

The first store in Kentucky was that of the Transylvania Company at Harrodsburg.

The first school at Boonesboro was taught by Joseph Donahon in 1779.

The first white native American to visit Kentucky was John Sailing, of Virginia, who, in 1730 was carried as a prisoner by the Indians through the State.

The first white woman that ever saw Kentucky was Mrs. Mary Inghel, who, in 1755, was carried as a prisoner by the Indians to Big Bone Lick, in Boone county.

The first Dutchmen to visit Kentucky were a small company which established the White Oak Settlement in Madison county.

The first sermon preached in Kentucky was delivered by Rev. John Lythe, of the Church of England, in 1775.

The first ferry was established at Boonesboro in 1775.

The first county seat in Kentucky was that of Lincoln county, established at Harrodsburg.

The first law for the establishment of the public schools was passed in 1828.

### STOMACH CATARRH.

From Maine To Florida Pe-ru-na's Fame Has Spread.

Gottfried Hemmerich, of Palmer, Fla., says the following in regard to Pe-ru-na for catarrh of the stomach:

"My trouble was catarrh of the stomach, and your medicine has performed a miracle in my case, as the doctor I consulted said I could not live if I stayed in Florida. He wanted to send me to a hospital in Knoxville, Tenn. If I had done this I would surely have died. I took Pe-ru-na and now again I have life and energy, and new flesh and blood has replaced what I lost."

Hon. J. D. Rutkin, Congressman-at-large from Kansas, says: "A few bottles of your medicine have given me almost complete relief from catarrh of the stomach, with which I have been afflicted more or less for a quarter of a century." Address Dr. Hartman, Columbus, Ohio, for free book.

### The "Peachereno."

A boy stands on the street corners smoking cigarettes, using slang, becoming an adept in the science of polite swearing, making remarks about all the women that go by, and telling exactly where old Tom Smith misses it in the management of his business affairs. He does on the appellations "Jane-sweetener," "tough" and peachereno applied to him throughout the community. His conduct is condoned at by the witless girls of the town on the road to God knows where, he is dubbed "The proper stuff" by his associates, while the younger prodigals look upon his reputation as a consummation devoutly to be wished. After a little there is an opening in the firm Stoddard & Stoddard for a promising boy, offering a good salary to start on. But our young peachereno doesn't get it. No sir, he doesn't get it, and he can't understand why he, of all the young men in the vicinity round about, should not have been approached with that proposition at least three days before anybody else was thought of. Why, he can roll in cigarette quicker and spit through his teeth more approvingly, he can brogue out his oaths with a higher degree of stiffness, he can tell a vulgar yarn with greater gusto, he can sulk around to more strange places and escape unseen, he can drink more booze and walk straighter, he can have more wayward boys hanging on his heels, give more free advice and tell you more assuredly wherein the whole world is making a fool of itself, than any other young man in a radius of ten miles. And how many business houses with a position to let could overlook him is more than his little head can comprehend.

Wretched, wry-headed incapacity, with distorted conceptions of life! What hath a business house to do with thee? or why should a respectable institution of whatever nature covet thy presence?

Boys, the business men of your town know you better than your own parents do. Their eyes are on you when you are least aware. You may slip away from your old mother who sits busy with her knitting, you may dupe and deceive your best friends, you may elude the watchful eye of your teacher, you may trifle with the confidence of your Sunday School Superintendent, but you can't fool the business men of your town when they have a position to be filled.—Eliabethown News.

informed her of the serious illness of  
her son, Bascom McClure, who is liv-  
ing at Graham.

When you want an easy shave or  
best hair-cut, call on Bascom Hale.  
A first-class bathroom is in operation  
in connection with the shop. Por-  
celain bathtub, instantaneous water  
heater.

A man rode a horse into Cassville  
Tuesday and tried to sell him by auc-  
tion. This created suspicion and he  
was arrested. It was found that the  
horse had been stolen from George  
Stewart, near Kenova.

Lock Moore has accepted the po-  
sition of traveling salesman for De-  
son, Moore & Co., which R. J. Thomsen  
recently resigned. Lock is a good  
salesman and has had considerable  
mercantile experience.

The wife of Henry Imas died at  
her home on Lick creek a few days  
ago, of consumption. She was an  
excellent woman, highly respected  
by her neighbors. She was the moth-  
er of Mrs. J. C. Bussey, of this place.

## The City Guardians.

City Council met in regular monthly  
session Tuesday night. The routine  
business, such as the allowing of  
claims, etc., was soon transacted and  
then some special business was at-  
tended to. The paying heretofore  
ordered was the subject of some at-  
tention and it was decided that it  
must be completed within 30 days.  
Hays under 18 will be required to  
stay at home after 7 o'clock p. m.,  
instead of 9 o'clock, as the ordinance  
formerly read.

It was further ordered that after  
the beginning of school the marshal  
must arrest all children within the  
school law if found upon the streets  
during the school hours without a  
lawful excuse.

Louis now feels what it is to have  
a real live author in her borders.  
Mr. Fred W. Powers, one of the edi-  
tors of that party, "The Ashland  
Independent," has been here several  
days in the interest of his paper and  
is circulating himself at a lively rate.  
Naive and genial, Mr. Powers finds  
no difficulty in "getting along" with  
the folks and making friends. His book,  
many hundreds of copies of which  
have been sold, is aptly named, "In  
the Shadow of the Cumberland," and  
is a fair work of art of the place,  
people and possibilities of the  
region with which the author seems  
as familiar. To the dweller in the  
section of the "Shadows" the story  
appears forcibly as a portrayal of  
things they had long known but had  
not appreciated. Read by a stranger,  
it opens a world of interest and action  
hitherto unknown to him. Mr.  
Powers is also the author of many  
sketches of readable quality.

Mrs. Josephine Rice, of Louisa, is  
here attending J. H. Cooper in ar-  
ranging the affairs of the branch of  
the Stinger Sewing Machine Co.  
Mrs. Rice is a talented singer and  
one who Mr. Harris entertained some  
friends at the Foreman Hotel, Tues-  
day night, with some most delightful  
music.

Charles Rice, son of Mrs. W. T. At-  
kinson, is very ill of typhoid fever at  
the home of his step father, Dr. W. T.  
Atkinson, this city. Mr. Rice ar-  
rived here Monday morning.

Painting has been done in the vil-  
lage of Cassville.

A picnic supper was given at Clyffe-  
side Friday evening complimentary to  
Mrs. Ben Thomas, of Cincinnati, and  
her daughter, Miss Edith, who are  
the guests of Mrs. Thomas' sister,  
Mrs. James McConnell. After the de-  
licious luncheon had been disposed of,  
the picnic party enjoyed the perfor-  
mance at the Casino, entitled a "Sol-  
dier Sweetheart." Those who par-  
ticipated were: Mrs. James McConnell,  
Mrs. Ben Thomas, Mr. and Mrs. Gun-  
nell, Messrs. Amanda Yates, Mayne,  
Wellman, Frances McConnell and El-  
dred Thomas, John McConnell and  
his daughter.

Our merchants were much interest-  
ed in the results of the Louisa Can-  
ning Factory a few days ago, when  
one of the canned beans were ex-  
amination. This proved to be equal  
to the best in the market and the  
merchants are enthusiastic over the  
results of the test. The factory is  
just starting on the tomato crop.

The Baptist Church and the M. E.  
Church South served for, &c., in  
the public square last Friday evening  
for the benefit of Mrs. Malissa Wil-  
son. The net proceeds were \$18.65,  
the ladies of the Baptist Church re-  
ceiving \$8.55 from their table and  
the South Methodists, \$10.10 from  
theirs.

Prof. L. W. Chapman, of Madison-  
ville, Ky., was here with his family  
last week visiting relatives. On last  
Sunday he delivered an address at  
the church house located near his  
home on Lick creek. Prof. Chap-  
man is again at the head of the Mad-  
isonville schools.

The Cincinnati Daily Enquirer and  
Commercial Tribune will be on sale  
at Louisa's store at 2:30 p. m.

Sunday papers will also reach here at  
that time. This service is secured by  
the N. & W. R. R., and supplies the  
papers three hours earlier than heretofore.

Old Hampton's store in Cassville  
was broken into and robbed Satur-  
day night of a big sack full of goods,  
including about a bushel of bar-  
ley, some shoes and some cloth-  
ing. A reward is offered for the  
burglar.

Clifford Justice, son of T. & O.  
Jeff Justice, was thrown from a  
horse one day last week and re-  
ceived a bad injury. The latter added injury  
to his leg by stepping on the horse  
fellow after throwing him, making  
a wound which required five stitches  
to close.

Last Friday while some boys were  
"tossing" with a revolver the ma-  
chine went off while in the hands of  
Archie Wilson and the bullet went in-  
to the right arm of Jim Heston. The  
ball passed between the two bones  
of the forearm, inflicting a very pain-  
ful wound.

SMALL FARM WANTED.

I have an inquiry for a small farm  
of 20 to 30 acres, with dwelling and  
orchard, near railroad and river, in  
Lawrence county. Send description  
and price to M. F. Conley, Louisa,  
Ky.

Young John McIntire, while at work  
with the bridge near across the riv-  
er Thursday, let his right arm come  
in contact with a moving saw. The  
arm is badly injured and the  
tendon being entirely severed it  
will be several weeks before he will be  
able to use the injured member.

The improvement of Water street  
notified in last week's paper must be  
entering, as it has extended at sev-  
eral other thoroughfares.

## G. R. B. Chapman Dead.

The passing of Mr. George Chap-  
man, which occurred about 7 o'clock  
Wednesday evening, removes a well  
known figure from Louisa. Born near  
Louisa nearly seventy-seven years  
ago he had never, so far as we know,  
lived anywhere else. He was an offi-  
cer in the 14th Kentucky Infantry and  
was at the famous battle of Middle  
Creek. After his army service was  
over he opened a general store in  
Louisa, and for many years was a  
successful merchant and trader. His  
first wife was Mrs. Bernadine Jones,  
daughter of the late Thomas Wallace,  
Merchant in life he married Mrs.  
Leon Tennant, of Ashland. At the  
time of Mr. Chapman's death he and  
Mrs. Chapman were living in the  
property purchased from A. J. Lutz,  
and from it his wasted body was  
carried to Pine Hill yesterday after-  
noon.

For many years Mr. Chapman had  
been in poor health, often confined  
to his bed, but his indomitable will  
and untiring energy kept him going  
until he was up and out when he  
should have been taking a rest.  
He was a man of the strictest in-  
tegrity, scrupulously exact in his  
dealings. To his kin he was ever  
helpful, and in his death they lose  
a friend indeed.

James, the only brother, lives in  
Paris, Illinois, and there are two  
surviving sisters, Mrs. Woodson and  
Mrs. Winfield Geste, in his widow.  
Mrs. Chapman had a most devoted  
wife. She was his constant compan-  
ion, nursing and caring for him with  
untiring patience and attention. To  
her and the other relatives we tender  
our sincere sympathy.

The burial service was conducted  
by Rev. O. E. Williams, of the M. E.  
Church, South.

**"To See Ourselves As Others See Us"**

Louisa, August 7.—The band is  
playing "Swanee River" in the court  
house yard; the merry din of child-  
ren's voices is interspersed amid the  
music, while a thousand tinkling  
tongues strive to outdo them.

This is Louisa by night.  
Up and down the streets gas lamps  
are struggling with the lustrous  
light. Over in front, across the Great  
Sandy, rises the foothills of the Cum-  
berlands, throwing down their kindly  
shadow upon the peaceful little  
hamlet of Port Day, Va.

Here in this twin town dwell a  
happy, industrious, thrifty, God-fear-  
ing people, endowed with a hospi-  
tality only found in our own native  
mountains.

A stranger steps from the morning  
train, at nightfall he is mingling  
with these good people as an old  
acquaintance. Warm-winded felicity  
has taken him into her broad, and  
he is made to feel the comforts of  
the parental jam-rock.

Thus fares the independent's field  
correspondent, Frederick William Pow-  
ers, and his assistant, Will C. Craw-  
ford.

This Louisa is a stylish little city.  
Brick sidewalks marked with abun-  
dant shade trees, front broad, green  
lawns, and modern homes re-  
spondent with all that goes to make  
the worth one's while.

The business portion is alive with  
well-stocked and well-kept stores,  
while from a number of buildings swing  
the inviting signs of doctor, dentist,  
attorney and insurance man.

If we were in this life to stop and  
slide here is one place we would  
love to call "home." But what right  
has the pen-pusher of a modern daily  
to think of a fixed abode? No more  
than has the wandering Jew. It is  
our mission to observe, make note,  
then move on.—Fred W. Powers, in  
Ashland Independent.

**Store News.**

The very latest styles in writing  
papers are on display at Conley's  
store. The have just arrived. The  
prices of the best boxes are 25c, 30c,  
35c, 40c and 50c.

If you haven't seen those new de-  
signs in gold and gold-filled watch  
cases at Conley's store you have  
missed seeing some beauties.

Only a few of those \$10 watches  
for \$2.50 are left at Conley's store.  
We can please you in watch  
chains and fobs and in ladies' neck  
chains.

When you want a pocketbook call  
at Conley's.

From demonstration in town and  
on Cemetery Hill Saturday night it  
was evident that the "spirits" were  
abroad. Brother Hilley, of the A. M.  
E. Church, not knowing exactly what  
would happen has moved his "camp"  
meeting to his church in town where  
all is done decently and in order.

The Cannonsburg county road is one  
of the prettiest roads and kept in  
the best condition of any road in  
this part of the State.—Press.

Umph! You never took a jump up  
your Lick creek road as far as Hebron  
or you wouldn't make such rash as-  
sertions.

Prof. M. A. Cassidy announces  
among many others these names of  
persons who successfully passed the  
examination required by law of can-  
didates for County Superintendent  
of schools: W. J. Elliott, Cross-  
township; William McDowell, Philis-  
ville; C. C. Fletcher, Inez; and Joseph  
H. Thompson, Louisa.

Last Saturday a Republican Con-  
vention was held in Louisa for the  
purpose of nominating candidates  
for Police Judge and Mayor. C. T.  
Rule was nominated for the Mayor-  
ship and James Hile received the  
nomination for Police Judge.

**PLEASANTLY EFFECTIVE.**

Never in the way, no trouble to  
carry, easy to take, pleasant and ef-  
fective in results are Dr. Williams' Pink  
Pills. These famous little  
pills are a certain guarantee against  
headache, indigestion, torpid liver and  
all of the ills resulting from consti-  
pation. They build up the strength of the  
liver, cure jaundice, sold by Lou-  
isa Drug Co.

## Our Development.

The Manufacturers' Record has the  
following as to the resources of West  
Virginia. Kentucky is the same in  
every way and the two States are  
bound together by the same region of  
mineral wealth. Great is the future of  
our region. Listen:

Absolutely bewildering is the ar-  
ray of possibilities this State con-  
tains in the way of wealth produc-  
tion. In any attempt to size up the  
full import of even present-day ac-  
tivities one is well-nigh baffled by  
the variety and extent of the op-  
erations going on, incessantly and pal-  
pably more beginnings as they are,  
coal, oil, gas and timber are the im-  
mediate great sources of wealth-pro-  
duction here, and either one of them  
in the quantity found here would  
make a wonderfully prosperous com-  
munity. Taken altogether and in the  
extent to which they exist, the mind  
is fairly staggered by the effort to  
calculate how rich a State West Vir-  
ginia will become when anything like  
utilization of these resources shall  
have been gained. No one can com-  
prehend the situation off-  
hand, if at all, and in its entirety,  
and with due reference to the en-  
circled values which must prevail  
with a more universal appreciation  
of the resources the State contains,  
West Virginia's development must  
unquestionably become one of the  
most remarkable movements in im-  
mortal and in profitable endeavor  
that the world has ever seen.

There has been more drunkenness  
in Louisa within the last two weeks  
than we have seen before for a  
long time. The Adams Express offi-  
ces every purpose of a saloon ex-  
cept that the liquor must not be ob-  
tained by the drink. Liquor firms  
outside of the borders of the State,  
secure a list of the druggists in the  
community and of those who are  
considered likely to become such,  
and then ship to the address of each,  
one or more packages of whiskey, C.  
O. D. When any of these fellows of  
their friends want a quart or more  
and can raise the price they go to  
the express office and get it. The  
express office is kept well supplied  
all the time.

Kentucky distillers are not allowed  
to engage in this business since cer-  
tain decisions were made by the  
Court of Appeals, but the Anti-  
States-Rights Interstate Commerce  
law renders us powerless to protect  
ourselves from the abuses of out-  
siders.

School work. Isaac Cunningham, Sec.

**FIENDISH FEELING**

Is often caused by the use of  
canebrake, that eat a way into your  
skin. Wm. Beall, of Eld Rock, Mich., says:  
"I have used Bucklen's Arnica Salve,  
for Fleas, Scabs and Canebrake. It is  
the best healing dressing I ever found.  
Scabs and boils cure, burns and  
scalds. 25c at A. M. Hughes' drug  
store, guaranteed."

There appears elsewhere in this  
issue of the NEWS a short article on  
a sort of boy, of a kind to be found  
in every city and almost every town.  
We want every boy in Louisa to read  
this brief article, and if it be re-  
cognizes a photograph of himself let  
him resolve right then to change his  
evil.

Dr. H. Haws, of Warfield, was here  
Wednesday.

Misses Effie and Lucella Cassidy,  
left Tuesday morning for a visit to  
their uncle Mr. R. P. Cassidy's Olive  
Hill, Ky. They will also visit friends  
at Greenup and Louisa before they  
return.—free items.

Born, the 2-year-old son of Mr. and  
Mrs. Wm. Mason, of Marion, W.  
Va., died at that place last Friday.  
The family visited here this summer  
and the bright, handsome boy won  
his way into the hearts of all. Mrs.  
Mason was Miss Mary Yates.

When the martins left their roosts  
in the trees Saturday morning they  
did not return and we shall see them  
no more until next spring. They are  
not only cheerful pests, and they  
will receive a welcome when they  
come again.

J. R. and Marion Stratton have  
been here for a few days visiting  
their father, R. S. Stratton. They  
have been in Mississippi for a few  
years in the lumber business and are  
doing well. The yellow fever scare  
sent them northward on this trip.

The NEWS is requested to announce  
that there will be a festival in the  
Bussville church Saturday evening,  
Aug. 12, beginning at 6 o'clock. Ev-  
erybody invited and a pleasant time  
assured.

John Simpson, of O. O. brakeman,  
was taken sick on the train from  
Ashland last Saturday and was sent  
back from Louisa to his home at  
Lockwood.
